

RUNBOOK

Pass 4.5 Remediation Routing

1. Re-route license findings:

```
``powershell  
  
.\scripts\Reroute-LicenseCompliance.ps1  
  
...
```

2. Preview tag protection:

```
``powershell  
  
.\scripts\Set-NonoReleaseTagProtection.ps1 -WhatIf  
  
...
```

3. Apply:

```
``powershell  
  
.\scripts\Set-NonoReleaseTagProtection.ps1  
  
...
```

4. Verify:

```
``powershell  
  
.\scripts\Test-NonoReleaseTagProtection.ps1  
  
...
```

EMS-CTRL-020 is intentionally moved to POLICY_REVIEW because a missing LICENSE file is not sufficient evidence of dependency-license noncompliance.
